**V. Conversation with CCAN: expanding the coop store, regular shuttles to target or walmart, and destigmatizing + institutionalizing use of the free bus passes**

- Affordable shopping options for FLI student since the city isn't changing for them; things like toiletries and medicine need to be more accessible
- Idea with Coop Store and Coop Fountain
  - Switch the two areas and allow for more things to be in the new Coop Store, ideas to work with FLI and students to see what products would be accessible
- Shuttle System, see what the needs are of the students and try to use vehicles on campus for transportation, it would be more time efficient compared to using public transportation
- Moving forwards what does ASPC need to do?
  - Navigate shuttle and transportation issues, how does CCAN navigate this?
    - In the future if continuing with the shuttle idea, a budget request to initiate the startup can be used
  - Future conversations of who will potentially run the system if it ends up happening

**VI. Debrief Advocates/Statement Writing**

- Building the bridge between administration and Advocates.
  - Is it our role to moderate? What do we need to do to make it a productive AND safe space for conversation? What is ASPC official stance on the matter...?
    - Productive manner takes more planning
    - Maybe have professors or professionals who are able to monitor in a better fashion be moderators instead
- How can ASPC continue to support students and make sure that they are aware and have access to all their options and avenues of support? (On and Off Campus)
- How can we continue to provide alternative spaces for peer to peer support? (i.e. group counseling, symbolic Walker Wall paintings, give additional funding to organizations doing this work, Sexual Assault Awareness Month)

**VII. State of Pomona**

- Goal to document what's happening on campus and also what the future holds
- Strategic Planning Process: Dreaming Big. Greater call for what?

**VIII. Adjournment / Closed Meeting**
