 - How do we get younger people to get involved for institutional memory
 - Have the language and the information that would allow them to be able to get involved
- Bring in those involved with the Strategic Planning Committee to be able to provide more information and expectations about things they would like

V. BOT Conversation Debrief - the spirit and language of the “law” regarding alcohol and unregistered parties, how does it impact the social atmosphere of campus

- Party policy: Non-zero number rule, it is not written anywhere in the Pomona handbook or student code but it is what has been said throughout our time at Pomona
 - Conversation: How has this affected the culture of Pomona?
 - How are safety and lack of party culture a safety concern? How does Alcohol policy play a role in these concerns?
 - What spaces are available for students to hangout?
 - Students don't have access to spaces that were available to students in the past
- Goal to address these issues this semester
 - Invite Dean Hickson to address disconnections between administration and students on campus life. Look at data, if any.
 - To implement some sort of policy, there is a 30 day wait period for review

VI. The State of Pomona- How can we leverage the platform of student government and our positions as elected officials to bring to light the “state of Pomona’s campus” to outside constituents of the institution? (alumni, board of trustees, parents) We must acknowledge our ability, platform, and duty to create (and reclaim) space that gives power and voice to students.

- Idea to create an Oversight Committee made up of students
 - It would collect existing information (institutional statistics, thesis) in a database to preserve student's history in clubs and organizations
- Takeaways: How are we keeping the state of Pomona in mind for the next Senate and the work that the current senate is unable to finish/accomplish for their term?
